## The Ovington Oracle

## Happy New Year!

As you read this daylight hours are increasing, it might not be noticeable for a few weeks, but it is happening - hurray. On 3 January we note perihelion, where the earth makes its closest approach to the sun in its slightly elliptical orbit 3.1 million miles closer than the furthest part of our orbit.

On a much smaller scale, from 'North Ovington' we welcome Tony and June who have moved into Chanticleer (The Old Cock - where the Rand's used to live).

## Ladies Group

Ann Johnson

On Tuesday, 19 December, the Ladies Group concluded their year with the Christmas Social. This was a wonderful occasion and we thank all the committee who worked hard to make the evening special. We also thank The Harmonettes who enhanced the evening with their beautiful singing.
The winner of the Annual Shield for gaining the most points in the competitions throughout the year was Angela.
Next month, on Tuesday 16 January at $7: 45$ pm, we welcome Joan Kurody. The evening is entitled 'Three for the Price of One'. She will talk to us about her life in India which should be really interesting. May I remind you that subscriptions will be due this month and, as we will be paying more for the hire of the hall, the Committee have decided to put the rates up to $£ 7.50$ per year and $£ 2$ for visitors to any meeting.

The competitions this year are based on materials and for January it will be anything made of Wood. Anyone wishing to join our group would be most welcome. We meet at 7:45 on the third Tuesday of the month, unless otherwise stated in the Oracle.

## Church back in use - Schools Concert 3 February 2018

A very successful Christmas Carol service was held in the church on Sunday 17th December with the church beautifully decorated, and full. The Harmonettes sang some wonderful carols, and the service was concluded with mulled wine and mince pies.
The final work on the church has been put on hold over the Christmas period to allow services to be held, and should recommence during the spring. There are still several places with flaking plaster due to the historic damp problems which will be replaced and lime washed. Time had not allowed for this to happen in the first stage of works, but when done will restore the church to its former grandeur. It is already noticeable how much better the church looks inside with all the major structural cracks repaired and repainted. There had been slight delays in the final connection of water to the church due to wintery weather, but these problems have been overcome.

As already indicated the schools on site project within the village has completed, but it is going to be hands on with as many people as possible to help with rehearsals for 3 February 2018 performances. During the past year each of the seven schools attending have selected fifteen pupils who will combine with those selected from all the other schools to create a public performance. It is planned to give an entertaining and interesting performance, depicting many of the wonderful things that they have been involved with in the prior year. At the same time there will be an exhibition of their creative work. People of Ovington are invited to buy tickets, there will be two performances, 14:00-15:00 and 16:30-17:30. Tickets are subject availability with a limited supply:

James is a Norfolk - based writer and performer, born in Holt, who graduated from UEA with an MA(Distinction) in Scriptwriting. He won the Anglian Voices Playwriting Competition in 2017 and has previously toured nationally with 'Rubber Ring', receiving rave reviews.

## And finally ...

From last month's puzzle Bill \& Bert were discussing their respective ages ... Bill is 30, Bert is 90.

- A man goes into a pharmacy and asks the
 pharmacist if he can give him something for hiccups. The pharmacist promptly reaches over and slaps the man's face.
"What did you do that for?" asks the man.
"Well you don't have hiccups any more, do you?"
The man says, "No but my wife out in the car still does."
- If all the world is a stage, where is the audience sitting?
- Doesn't "expecting the unexpected" make the unexpected expected?

## Did you know ...

The sunken lane which leads up to Water End Farm, was used by Roman soldiers as shelter from the biting East Anglian winds whilst en route to areas on the coast, which are now part of North Norfolk. This then was part of the
 original road that leads northwards nowadays through Dereham and on to Weybourne.
