# The Ovington Oracle

December, 2023

#### Solar News:

The solstice is on 22 December, at 3:28am to be precise. It seems to me an ideal excuse to raise a glass and look forward to increasing daylight ... although the next day the sun is only 5 seconds longer above the horizon so it may take a while to notice.

## Rainfall

Rod Rumsby

The total rainfall for October was 120mm or 4.75" It was rather a wet month with two quite serious rainfalls, flooding was narrowly avoided, as far as I'm aware.

As of 25 November the amount dropped on us is 73.5mm or just a fraction shy of 3", still on the damp side though.

# **Boundary Dispute Resolved**

Christine Reilly

I am pleased to report that, after nearly 8 years, the boundary between the village hall and the church has finally been settled to the satisfaction of the Land Registry. It was originally caused by an error on the Ordnance Survey map, giving a strip of village hall land to the church, which was only picked up when the village hall tried to register its land.

After about 5 years of meetings, emails, phone calls and huge amounts of documentation, along came Covid which put the Land Registry into a state of paralysis. When they finally started to recover in July, there then followed further demands for documentation and even more emails, phone calls, etc. However, it is a great relief to have the Title plan corrected as it means that access around the back of the hall can be maintained, even if the building is extended in the future

November seems to have rushed by; seems like only yesterday that we had the Remembrance Weekend with both a detailed and moving Service on the Sunday, and a Coffee Morning with an Exhibition of World War I & II Memorabilia on the Saturday. It was great to see our little church so nicely

decorated with Poppies, Union Jacks and flowers. Many thanks to Jane for all her hard work in decorating the church, to those who set up the exhibition and to all those who knitted poppies that were so beautifully displayed outside the church on a long net forming a wall of poppies at the entrance (Big thanks to Barry). On that Saturday Jane also organised a raffle the proceeds of which, plus the money raised by donations for coffee, tea and lovely home-made cakes (again many thanks to all those who made and donated cakes), went to the Royal British Legion and the St John's Church fund, split equally so that each received the magnificent sum of £94.02.

## **December brings**:

- a) our winter monthly Saturday Coffee Mornings on the first Saturday of Dec, Jan & Feb – come up and enjoy a hot drink plus a cake and a chat;
- b) our Carol Service where we will have festive songs from the Harmonetts and Quality Corner as well as your favourite carols; and
- c) a Christmas Day Service in addition to the normal weekly Sunday Services (Every Sunday except the 5th Sunday).

Stay warm and have a safe and happy Christmas.

On Saturday 18 November we held our Festive Bazaar. The weather was not very good but fortunately the rain stopped just before the start. Hot soup, rolls and cakes were provided by our brilliant ladies and a raffle held thanks to Jane.

A very good day was had by all.

The only forthcoming event this month will be our 'Festive Afternoon Tea'

Tickets are going fast so if you wish to reserve a table please ring me on 07733236689 or come to my home:

Chestnut House, Church Road, Ovington.

We will require full payment please before we can allocate a table as numbers are restricted.

Don't lose out; it will be a great event.

There will be a Trustees Meeting on Wednesday 13 December in the Committee Room.

Please also remember we will be having a New Year's Party in the Village hall. More news about this in next month's Oracle, Facebook and online at:

## Football update

Rod Rumsby

The season is now well underway and our young star is making his mark, being awarded "Man of the match" after more than one game. Admittedly his team have not always won, because their opponents have become aware of Brody's skills in attacking the goal, so have strengthened their defences and given more training to the goal keeper.

They had a significant win beating a strong team at Mulbarton 5-nil, where our top scorer knocked in three. His abilities have been recognised by the senior teams and he is usually drafted in to boost their scoring rate most weekends. He plays for his normal team on Saturday, the senior team on Sunday and trains Monday and Tuesday. So it's a heavy demand for the lad, but he seems to thrive on it. Long may this enthusiastic approach to the great game continue.

Are there any more budding stars coming along in the village I wonder? It would be great if we could form a whole team of boy stars or more likely these days: a girls team.

... Go for it young Ovington.

## Football maths

Timothy Birt

A bit of geometric trivia about the familiar football made up of 20 hexagons and 12 pentagons:

The shape is derived from an icosahedron, one of the five 'platonic solids' studied extensively by the Greek mathematicians such as Archimedes and Plato around 2500 years ago. The icosahedron is formed entirely of equilateral triangles, but when it has its corners cut off it makes the iconic hexagon—pentagon football, which is formally called a 'truncated icosahedron'.

There is something rather special about the football shape which relies on a particularly pleasing number called the 'golden ratio' to define the position of each corner. The number is 'irrational' so can't be written down as a decimal because it goes on for ever without repeating.

## Drag & Racing in Carbrooke

Bruce Smith

A report of activities at our neighbouring village ...

In the last few weeks, we have attended a couple more events at Carbrooke Village Hall. These were the Race night and Drag Bingo.

As always, we enjoyed a very warm and friendly greeting. The first event was the Race Night, a very well attended, sold out evening. This, as always, is an exciting fun evening, with edge of the seat moments, cheering your horse on. I had a very consistent evening, in that I lost in every race!

I never even won anything in the Raffle, LOL!

However, the evening did raise over £400 for their village hall, so a very good evening.

The second event was on the evening of the 18 November, when we attended the Drag Bingo evening. I had never been to a Drag Bingo event before, so was a new thing to me, and I was not sure what it would be like. Well, it was fun from the moment it started, maybe a little more for the broad minded, but we laughed all evening, along with some singing and dancing thrown in for good measure. And this time I did win a 'full house' game, so that was a very nice bonus. All round another successful evening for Carbrooke Village Hall.

Following some recent successful grant applications, the village hall at Carbrooke will, in the coming months, be having a completely new roof fitted, so this will be a further improvement for the coming years.

Bruce
